

**v1.0 (2026)**

# Brand Guidelines

SELM Brand Guidelines provide the rules for visual consistency across all touchpoints—app UI, website, social media, and presentations. Use this document as the single source of truth for brand assets.

# About Brand Guidelines

SELM is an AI-powered English learning app designed to help learners progress across CEFR levels (A1–C2) with measurable results. It delivers personalized practice across Reading, Writing, Listening, and Speaking, supported by instant feedback and progress analytics.

## Function

These guidelines define SELM's visual identity so every asset feels consistent—inside the app UI, marketing materials, social media, presentations, and partner communications. Consistency builds trust, improves recognition, and keeps SELM looking premium at every touchpoint.

## Guide

Use this document whenever you create or review SELM materials. Follow the logo rules (spacing, sizing, and backgrounds), apply the approved colors and typography, and keep layouts clean and minimal. When in doubt, prioritize clarity, simplicity, and legibility at small sizes.

# Using logo

Use the SELM logo only in the approved lockups shown below. Keep proportions, spacing, and colors unchanged. Always prioritize legibility—when space is limited, use the Symbol version.

## Vertical Use

**Best for:** posters, cover slides, social posts

## Horizontal Use

**Best for:** website header, documents, presentations

## Symbol Use

**Best for:** app icon, favicon, profile avatar

- Clear space: keep at least 1× the symbol stroke thickness around the logo.
- Minimum size (digital): Symbol 24px / Horizontal 160px wide / Vertical 96px tall.
- Backgrounds: use Navy or White. Avoid busy photos and low-contrast backgrounds.
- Use White logo on Navy only (preferred)

# Logo Color Variations

Use approved logo color combinations only. Default is Navy on White. Use White logo on dark backgrounds. Avoid low-contrast backgrounds and never add gradients or shadows.

# Brand Color

## Primary

SELM Navy is the main brand color. Use it for headers, key surfaces, and primary UI elements.

## Secondary

Neutrals support readability and a clean, premium feel. Accent is optional and should be used sparingly for highlights.

## Secondary Color

|                             |                               |                           |                              |

# UI Style

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Morbi vitae rutrum orci, sed luctus ante. Ut euismod purus ac neque volutpat mattis.

# Legal Guidelines

## Trademark Protection

SELM name, logo, and visual assets are trademarks of SELM. Do not modify, recreate, or use them in a way that implies partnership or endorsement without permission.

## Logo Usage Guidelines

Use only approved SELM logo files and color variations. Keep proportions, clear space, and minimum size rules. No stretching, effects, gradients, or placing the logo on low-contrast backgrounds.

## Third-Party Content Usage

Use only licensed or permissioned third-party content (images, icons, audio, fonts). Always attribute when required and never use copyrighted materials without rights—including screenshots of paid content.

## Privacy Statement

SELM may process learning data to personalize lessons and improve performance (e.g., progress, activity, and settings). Never share user data publicly. Follow applicable privacy laws and use only approved data sources.

## Marketing Compliance

All claims must be truthful, measurable, and non-misleading (avoid “guaranteed results”). Include required disclaimers where needed and respect platform ad policies for education/AI products.

## Social Media Policy

Keep messaging respectful and consistent with SELM’s tone. Do not share private user information, DMs, or testimonials without written consent. Use approved brand assets and avoid political, hateful, or sensitive content.
